Pursuant to the Quality Assurance Program at Peterson Laboratory Services, P.A., this case has been concurrently reviewed by the following pathologist: Peggy Peterson, DO

GROSS EXAMINATION:

The specimen is submitted in formalin in a container, labeled with the patient's name and "Rectal Mass BX". Submitted in the container is a 2.0 x 0.5 x 0.2 cm aggregate of tan friable pieces of tissue. All are submitted in one cassette.

MICROSCOPIC DESCRIPTION:

The microscopic slides on this case have been reviewed and filed. The findings correlate with the final diagnosis as stated. If applicable to this case all negative and positive controls were reviewed and stained appropriately.
